

Your number one MS exchange alternative on **igaware**

Outlook is the first choice email and groupware client and now its full functionality can be used without the complexity and cost of an exchange server.

The Igaware Email & Collaboration Server includes the award winning Zarafa server that allows you to share e-mail, calendars, contacts and tasks via Outlook, or on the move using your PDA, Blackberry, Mobile phone or via Webaccess.

Webaccess features the familiar Outlook 'Look & Feel' interface, and you can keep using the features in Outlook that have always allowed you to work efficiently; opening your colleague's calendar or sending a meeting request is a piece of cake.

Email Security and Reporting

The Igaware Zarafa Email & Groupware server has security built in including; Anti-Spam, Anti-Virus, Anti-Phishing and content filtering.

All incoming and outgoing email is logged allowing for detailed reporting of email usage.

Technical Specification
